

NEW

MODERN AMERICA

This stemware has the signature of American Designer, Edwin W. Fuerst who created entirely handcrafted glasses towards the end of the Art Deco period.

The graceful curved bowls complement the tall stems with a strong base.

The design reflects back to some of New York's archetypal architecture like the Empire State and Chrysler Buildings.

LIBBEY®

+DuraTuff®

Libbey's DuraTuff treatment is a super strengthening thermal after process for tumblers and stemware. The DuraTuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock.
